$\underline{\mathrm{D}^0,\ \overline{\mathrm{D}^0},\ \overline{\mathrm{D}}^0,\ \bar{\mathrm{D}}^0,\ \mathrm{D}^\circ,\ \mathrm{D}^\mathrm{o}}$

Harry Nelson

April 15, 1998

D^0, $\overline{\mathrm{D}^0}$, $\overline{\mathrm{D}}^0$, $\bar{\mathrm{D}}^0$, D°, D^o
D^0, $\overline{D^0}$, $\overline{D}^0$, $\bar{D}^0$, D° , D^o

Looks to me like the RPP uses D^0-$\overline{\mathrm{D}}^0$ mixing.
